

## waterproofing kit

# BAL Best Value

### Features & Benefits

#### **Feature 1: The complete waterproofing system**

- Contains a waterproof coating, polyester tape for reinforcement of corners and joints, polyester matting, where required, for floors, and a wall & floor primer. Sufficient for one domestic shower unit.

**Benefit: Convenience. All you need in one box.**

#### **Feature 2: Totally Waterproof**

- Seamless waterproofing prior to tiling - ideal for showers, wetrooms or areas where dampness is a problem. Protects backgrounds, bases and underlying structures from water penetration.

**Benefit: Peace of mind; avoids costly damage.**

#### **Feature 3: Easy to use**

- Step-by-step instructions in kit.

**Benefit: Anyone can use this system.**

### When should I sell this?

When undertaking tiling in an environment exposed to regular wetting, such as shower rooms or wet rooms, a waterproof tanking system is absolutely essential.

Any tiled surface in a shower room that has not had the background prepared with a tanking system runs the risk of failure. Protect your shower area for less than the cost of your insurance excess.

### ...PLUS enjoy the benefit of BAL

#### **Trusted throughout the tiling industry**
