

Installation

1. Push the expanding plugs (part 1) into the holes on the toilet pan then place the gaskets (part 2) between fitting pegs (part 3) and toilet pan. Next, place the long screws (part 4) through the fitting pegs and gaskets and screw into the expanding plug (part 1).

Please note: Fit the screws loosely and do not fully tighten at this stage

2. Turn the fittings on the toilet so that they align with the holes on the seat, then push the seat onto the pegs until it clicks into place. Gently move the seat so that it aligns on the toilet pan.

3. Once the seat is aligned, tighten the screws into the fittings (as below) then once the seat is secured, remove it by pressing the buttons and lifting away.

4. Place the fitting covers over the fixed fittings then push the seat onto the fitting pegs and click into position
