Understanding Tiles

When it comes to tiles, there is no shortage of materials, colours, textures and designs to choose from. From ceramic to luxurious marble, there is a perfect floor tile for every room in your home. However, not every material is appropriate for every space. Knowing which is the right product for your particular needs can make a big difference in the tile's longevity and your overall satisfaction.

Ceramic Tiles

Ceramic tiles are a popular choice of flooring due to their aesthetic appeal, as well as their durability and easy care.

Porcelain

If you are looking for a material that has strength, moisture resistance and versatile design, porcelain is the best choice. It is more durable than ceramic tiles and comes in a greater variety of styles, colours and textures.

Natural Stone

If you want a natural and unique look, Natural Stone is what you need for walls and floors in your home. Each tile has its own individual markings so therefore no two tiles are the same creating a timeless and elegant look.

Coordinating Grout

Lighter Grout

Darker Grout

Different Grout... Different Look!

When choosing the grout for your tiles, be sure to check out all of our 17 colours available so that you get the exact look you desire. The colour of your grout can change the overall look of your tiles completely.

The pictures to the left show how our colours create different effects when used on the same tile.

Ordering a Sample

You can now order up to 3 sample tiles for only £5.95. This simply covers our costs in posting the samples out, but if you order samples along with any other product, they will be completely free of charge!

All samples are swatch samples taken from full size tiles. You can order them instore, online or by phone.

Tile Essentials

Choosing beautiful tiles is only the first stage of the process; here at Better Tiles we also stock all the essentials when it comes to creating a beautiful space, from adhesives, grouts and bonding agents along with all the necessary tiling tools to help you easily get the job done. You may also be surprised to hear that we offer under floor heating. The perfect partner to your new tiles, our range of Easy-Lay mats caters for every room, regardless of their size. Finally don't forget the all important stone care to ensure your tiles receive the effective treatment and protection for that timeless appeal.

How many to order?

Unsure of how many tiles you need? Simply visit betterbathrooms.com and search for your specific tile by either its name or unique product code.

Once on the product page, click the 'Tile Calculator' icon, which through then entering your area width and height in cm will display the correct amount of tiles required.

By selecting from our sets of complete tile ranges, you can be sure that everything you need for a deluxe tiled finish to your bathroom will be perfectly coordinated: from wall tiles to floor tiles, mosaics and borders, all hand picked by us, to perfectly suit your style.
